

## SWECO Trail Products

**“Home of the SWECO 480 Trail Dozer”**

SWECO Products, Inc. has been producing trail building products for over 25 years. During this period trail professionals from around the world have come to recognize SWECO's 480 Trail Dozer as an indispensable tool for building trails as well as working in parks and open spaces. **We build the tools that help you build the trails.** Our products are used for park and recreation maintenance; wood lots; and city, county, state and Federal maintenance work. They are also used by ranchers, contractors, military services and for fire suppression.

SWECO Products Inc. has been family owned and operated in Sutter, California since 1946. The same drive and determination that led Robert Ziegenmeyer to start SWECO over 60 years ago has been passed down through generations, and is the reason why SWECO Products Inc. is still the first name in dependability. Today SWECO Products continues to build quality products that offer the performance and durability that make it the industry leader.

## The SWECO Difference

### Letter from Vice President, Sales

Dear Reader:

SWECO has over 60 years of experience building the best agricultural and industrial machinery in the industry. From 480 trail dozers to laser scrapers, we focus on building quality products that our customers can depend on. Our products are designed with the customer in mind so that they offer the most precise, durable, and effective performance in the industry – that's the SWECO difference.

#### **A TRADITION OF INGENUITY:**

Our products are designed to meet the specific needs of our customers. Whether we are designing and/or constructing a gargantuan wheel tractor for use in the Amazon jungles of Brazil, a salt harvester for Baja Mexico or a Tri Plane for California's agricultural community, SWECO Products is dedicated to building products that work for our customers.

#### **THE FIRST NAME IN DEPENDABILITY:**

When you buy a piece of equipment from SWECO, you are buying the most durable equipment on the market. SWECO equipment and its parts are built to complement each other, which makes our parts readily available and service of equipment easier. All of our products are manufactured in Sutter, California in one of our two facilities. SWECO products are true domestic manufactured products from a company that has been family owned and operated since 1946.

#### **SUPERIOR PERFORMANCE:**

SWECO products are not only built to work, our products are built to be the best. Our products are heavier, more precise, and tried. SWECO prides itself on the quality workmanship dedicated to every piece of equipment that it manufactures. Only the finest equipment and the best parts available are utilized in the manufacture of highly durable, lifetime machinery. We know how to build special application equipment. We have been doing it for over 60 years.

Sincerely,

Michael J. Ziegenmeyer

Vice President, Sales

Dear Trail Builder:

Thank you for taking the time to review the enclosed information regarding SWECO's trail building equipment and services. SWECO Products, Inc. equipment has been around for a long time (since 1946) and has built quite a reputation by providing the industries best and most innovative trail dozing products. At SWECO we are the exclusive manufacturer and distributor for all SWECO Trail Dozers including the industries popular SWECO 450 & SWECO 480, which has been a staple to trail builders worldwide for over 25 years. At SWECO we manufacture all of our equipment in the U.S. and provide service on all types of trail equipment old and new. We also manufacture and distribute trail dozer part sales and provide service for all trail dozer makes and models.

Please feel free contact any of our SWECO team members with questions regarding our trail building products and services. We are here to help you.

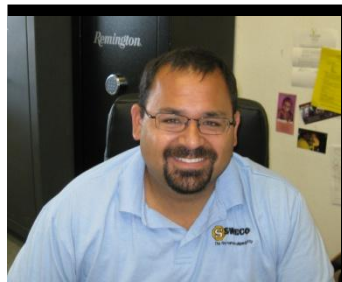

Thank you for your time.

# **S**WECO PRODUCTS, INC.

The first name in dependability

## **480 Trail Dozer**

The 480 Trail Dozer is manufactured and distributed by SWECO. It is specifically designed, engineered and tested for trail-making. It is used for park and recreation maintenance; wood lots; and city, county, state and Federal maintenance work. It is also used by ranchers, contractors, military services and for fire suppression. The SWECO 480 Dozer has a 4 cylinder, 83.1 BHP @ 2500 RPM Perkins turbocharged

diesel engine with a 24 gallon fuel tank capacity. This engine is operator friendly, environmentally sensitive, and was designed specifically to comply with worldwide emissions standards and with the EPA/CARB off-road Tier 3 and EEC off road mobile machinery Stage III legislation.

## **Specifications**

- **Length:** 11' 1"  
(with blade and rippers)
- **Height:** 6' 4"
- **Ground Clearance:** 8"
- **Gross Weight:** 9,000 lbs.
- **Frame:** 1/2" high tensile steel, unitized with full belly pan, hardened steel pins and bushings, designed for heavy dozer services, rock
- **Travel Speed:** 0-5 mph
- **Max Blade Lift:** 24"
- **Max Blade Drop:** 24"
- **Max Blade Angle:** 30°
- **Max Blade Tilt:** 25°

## **Standard Features**

Dozer Blade, 3-Shank Ripper, Turbo, Seatbelt, Tach/Hourmeter, Warning Lights, Vandal Protection Kit, Fuel & Hydraulic Oil Gauges, Cold Weather Starting, Heavy Duty Engine Cooling System, Auxiliary Hydraulics, Side Brush Screens, Hydraulic Oil Cooler, Rock Guards, Safety Brake, Lim Risers, Draw Bar, Dry Cell Battery.

## **Options**

Spark Arrester, Float On Dozer, Up/Down & Tilt, Enclosed Cab.

## **Research/ Development**

Sweco has a successful history of designing and constructing special application equipment. Our accomplishments include a gargantuan wheel tractor for use in the Amazon Jungles of Brazil, a salt harvester now operating in the salt flats of the Baja in Mexico, and a green chop harvester for hay cubing operations.

# The Right Tools for the Trail

“Home of the SWECO 480 Trail Dozer”

## Rock Rake

The SWECO Rock Rake is electric over hydraulic. It is built for tough work and will accurately level, fill, and move . . . smoothly raking loose soil and crushed stone on small and large jobs. The teeth are spaced 1” apart enabling the operator to remove rock, roots and undesired debris.

## Mini Box Scraper

The SWECO Mini Box Scraper is a smaller version of the popular standard box scraper which is ideal for leveling paths, home sites, and trail sites. The bucket can be hydraulically raised and lowered and this scraper requires a low horsepower tractor to pull it.

## Angle Blade Scraper

The SWECO Angle Blade Scraper is an excellent all-purpose tool. It is available in widths of 8’ to 16’ to be used with low to medium horsepower tractors. This is accomplished with a heavy frame construction. All wear blades (plow steel) are designed with slotted holes in the center so that the blades can be adjusted or rotated for new cutting edges.
